

British Petroleum (BP) Requests Field Tests of ACT Clean Technologies, Inc. Fluids for Gulf of Mexico Oil Spill Remediation

May 12, 2010 - New Orleans, Louisiana - PRNewswire-FirstCall -- ACT Clean Technologies, Inc. (Stock Symbol: [ACLH](#), Web Site: www.ACTCleanTech.com) announced today that British Petroleum has requested field tests of ACT Clean Technologies, Inc. fluids for remediation of the Gulf Oil Spill damage.

Ancon Marine, Inc., a contractor which sells fluids for ACT's wholly-owned subsidiary, American Petroleum Solutions, Inc., has been requested by BP to conduct field tests of ACT's patented cleaning fluids for the removal of oil residue from hard surfaces, including such things as the hulls of ships and barges, docking facilities and rocks along the shoreline.

ACT Clean Technologies, Inc. CEO, Russell Kidder, stated,

"If we successfully remove the oil residue from these hard surfaces as we have previously done in other remediation projects, we believe that BP will order our fluids to assist in the remediation of the continuing damage occurring from the recent oil well explosion in the Gulf of Mexico."

About ACT Clean Technologies, Inc.

ACT Clean Technologies, Inc. is committed to both a safer environment through cleaner technologies as well as more profitable methods of oil recovery and production from oil sands and other petroleum reserves.

Current APS clients using its technologies have already included some of the largest oil and gas companies in the US, including:

**Conoco Phillips, Exxon Mobil, Avon Petroleum, Valero Petroleum,
BP (British Petroleum) and the US Navy Petroleum Reserve**

Their wholly owned subsidiary, American Petroleum Solutions, Inc. provides oil field and heavy construction remediation services for projects complicated by environmental, regulatory, and other issues. Our experience ranges from soil remediation to complex, petroleum services related projects throughout North America.

Founded by engineering professionals with environmental construction and remediation engineering backgrounds, APS provides our clients the benefit of a combination of practical solutions and technical experience in working with hazardous substances that are unique to the construction and remediation industry.

The senior management of the company has past major project experience including: Mobil Oil's Torrance Refinery, Southern California Gas Company, Southern California Edison Company and the Long Beach Unified School District.
