

ACT Clean Technologies, Inc. Oil Fluidizers Found Effective for Gulf of Mexico Clean Up Efforts

May 20, 2010 – Huntington Beach, California – Marketwire –

ACT Clean Technologies, Inc. (Stock Symbol: [ACLH](#), Web Site: www.ACTCleanTech.com) announced today that field tests of its patented cleaning fluids were favorable and its oil fluidizers are suitable for the removal of oil residue from hard surfaces likely to be impacted by the continuing Gulf of Mexico oil spillage.

Representatives of Ancon Marine, Inc., a contractor which sells fluids for ACT's wholly owned subsidiary, American Petroleum Solutions, Inc., confirm that they have submitted samples of our Hard Surface Crude Oil Remover, which has been tested in the past and is under consideration by BP for use in the ongoing remediation efforts in the Gulf Coast region.

Furthermore, our "Fish Kill" documentation, which supports the environmental safety of our fluids with respect to fish, was favorably accepted.

About ACT Clean Technologies, Inc.

ACT Clean Technologies, Inc. is committed to both a safer environment through cleaner technologies as well as more profitable methods of oil recovery and production from oil sands and other petroleum reserves. Current APS clients using its technologies have already included some of the largest oil and gas companies in the US, including:

**Conoco Phillips, Exxon Mobil, Avon Petroleum, Valero Petroleum,
BP (British Petroleum) and the US Navy Petroleum Reserve**

Their wholly owned subsidiary, American Petroleum Solutions, Inc. provides oil field and heavy construction remediation services for projects complicated by environmental, regulatory, and other issues. Our experience ranges from soil remediation to complex, petroleum services related projects throughout North America.

Founded by engineering professionals with environmental construction and remediation engineering backgrounds, APS provides our clients the benefit of a combination of practical solutions and technical experience in working with hazardous substances that are unique to the construction and remediation industry.

The senior management of the company has past major project experience including the Mobil Oil – Torrance Refinery, Southern California Gas Company, Southern California Edison Company and the Long Beach Unified School District.

Forward-Looking Statements

This release contains "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, and such forward-looking statements are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. "Forward-looking statements" describe future expectations, plans, results, or strategies and are generally preceded by words such as "may," "future," "plan" or "planned," "will" or "should," "expected," "anticipates," "draft," "eventually" or "projected." You are cautioned that such statements are subject to a multitude of risks and uncertainties that could cause future circumstances, events, or results to differ materially from those projected in the forward-looking statements, including the risks that actual results may differ materially from those projected in the forward-looking statements as a result of various factors, and other risks identified in a disclosure made by the Company.
